## LUX PRIZE FILMS ON DEMAND

Would you like to know where to watch the LUX Prize finalist films in Europe online?

We invite you to discover the offer of video-on-demand (VOD) platforms available in your country by selecting any of the below listed films.

In addition, the search engine can help you find VOD platforms per country, per film, edition or by combined keyword search.

We aim at gradually including all LUX [catalogue](#) <sup>[1]</sup> films on this page.

Please note that some platforms might not offer the films with subtitles of the language of your country and/or might not be fully accessible from other countries.
